

NARRATIVE REPORT OF 2010

TEACH family wishes you all a blessed year in 2011. We are thankful to the Lord, TEACH Boards, friends, partners, well-wishers, supporters, churches, teachers & children for the blessings of year 2010. We experienced His blessings in abundance as we walked with the Lord this past year. This is a report of what happened through TEACH in 2010.

Anita (name changed) in a Children's program at Pratapi Church, Dang, Mid-west

Children's Program

We had a massive excitement when children were taken for a hike to Phulchowki mountain, to a picnic at the zoo, and many other places & programs. We were overjoyed to see children praying for other children of Nepal. They had a big heart for other children, more so than for the other adults there.

TEACH conducted Evangelism programs among the slum and street kids twice a month in partnership with Karuna Nepal. They run a feeding program every day. Many of the children had accepted Christ as their personal Savior. Children learnt Bible stories, crafts, and songs. Their attitudes and well-being were built up through these special programs.

In 2010:

1. 74 kids participated in the Children's Hike & Prayer.
2. 3218 kids attended 38 children programs.
3. 389 kids came to 16 Children's club (program with slum & street kids).
4. 370 kids prayed during the World Wide Prayer Day for Children on June 6.

Trainer Raiu

Training for Sunday School Teachers

In the past years TEACH has been experiencing His blessings in the ministry. Teachers are devoted, faithful, and hardworking as they reach out and uplift the children of their churches. Many youth and mothers are encouraged to work among the children. The trainings changed many teachers' attitudes in approaching children. Teachers said, "TEACH's teaching and modules are very practical and contextualized for Nepal". TEACH provides training in 3 Levels: Basic, Intermediate & Advance.

In 2010, TEACH held these trainings for teachers:

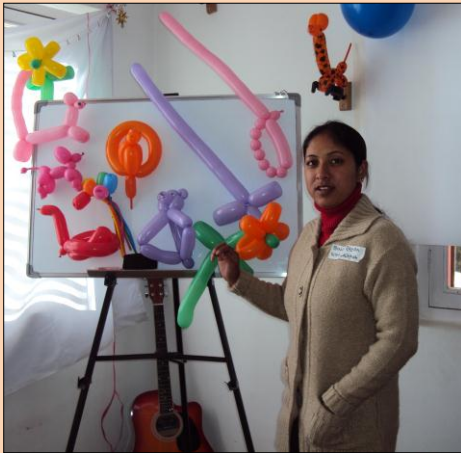

1. 987 teachers attended 39 Basic Teacher's Training.
2. 83 teachers attended 6 Intermediate Teacher's Training.

Puppet Shows

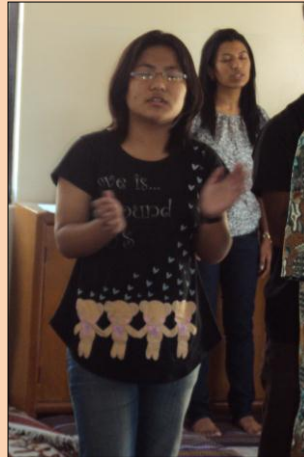

We all know that teaching is most effective when visual aids are used. Therefore to share the Good News and to teach moral values, it is best to use visual aids. Puppet shows play a large role in making maximum impact on mass audiences. It has been found that all ages of people enjoy watching puppet shows. In 2010, there were approximately 3126 people in our audiences in 19 shows.

Capacity Building Workshop

These workshops play a vital role among teachers and staff to develop their skills. We conducted special workshops to benefit them fully. It has been observed that such programs are very encouraging. Teachers say, "Working with the children is very tough and we always need to be updated and learn how to use new visual resources".

Bindi (TEACH Trainer) in Balloon Arts

Deepa in using curriculum training

In 2010, we held:

1. Craft making workshop.
2. How to use TEACH curriculum.
3. How to play different types of puppets' workshop.
4. Puppet making training out of waste materials.
5. Painting workshop.
6. Balloon arts workshop.

Awareness Programs

Radhika in Parent's Seminar

As the saying goes on, "It is better to build a child than to build adults". To build the future generation is not only a responsibility of TEACH ministry but it is also necessary to involve parents, teachers, church leaders and society. We also must make church leaders understand the importance of children in the family, church and society. Often this area of building up the children is ignored or neglected by the church.

In 2010, we did 13 programs with 990 church leaders, parents and teachers of the church attended. These programs helped them more fully understand the importance of teaching and training children.

A short report from TEACH Ministry, Dhangadhi, Far-west Nepal.

TEACH had a lack of staff who can serve for more years in the West. Our field promotional officer resigned in July due to his personal problems. But it's amazing to know that he is helping to reach the mid-west churches voluntarily.

We prayed for a fulltime staff member. Mr. Ram Singh Chaudhary (Field Promotional Officer) for far-west Nepal joined TEACH in August. He is doing a very good job. Please continue to pray for him as he serves the churches of west Nepal. In December he visited many churches and found Sunday schools were running without proper set-up and curriculum. Therefore he felt the urgency of curriculum needed for children. We are glad to know that many church leaders are cooperating with him.

A short report from TEACH Ministry, India.

Mrs. Mithu

As an extension of His ministry to India among the Nepali and Nepali speaking people churches, TEACH India is playing a great role. They are reaching all the states of North-east India . **The coordinator** (left picture) has a great passion to serve among the churches there. Before, she was sent for **3** years contract but now she doesn't want to come back to Nepal. Praise the Lord for her passion! She felt a burden for India and works incredibly hard to strengthen the

Pastors & Church leaders

ministry there. Now there are four staff members serving in our India office.

Prayer Requests for 2011

TEACH family would like to express thankfulness to all who have helped us. As we move forward, TEACH needs your prayer and support. Please continue to pray for:

1. Children who are living without Christ; pray that they give their lives to Jesus.
2. Teachers to devote more time for children in their churches.
3. Church leaders and parents of Nepal to give priority to reach out to the children in their churches, society and community.
4. TEACH team to fulfill the vision with love.
5. His financial provision and staff to run the programs well.

In His Service

Mr. Devanand Kadariya

On Behalf of Board & TEACH Family
Manager, TEACH

Programs from January 1 - December 31, 2010

Program	No. of Programs	Participants
